

## WickTray™ (WT-000)

### Description

Multi-purpose self-watering tray.

Introducing the WickTray™: The versatile solution for all your self-watering and gardening needs. Crafted from UV stabilised recycled polypropylene, the WickTray™ is not only environmentally friendly but also built to last. Designed with grow bags in mind, this ingenious tray creates a self-watering system that ensures your plants receive the perfect amount of hydration, reducing maintenance and promoting healthier growth.

**Key Features:**

**Durable Material:** Made from UV stabilized recycled polypropylene for longevity and eco-friendliness.

**Self-Watering System:** Seamlessly integrates with grow bags to provide consistent water supply.

**Versatile Use:** Suitable for various applications, from gardening to other innovative DIY projects.

**Environmentally Friendly:** Reduce waste with this sustainable gardening solution.

**Easy to Use:** Simplify your gardening routine with minimal maintenance.

**Improved Plant Health:** Ensure your plants thrive with consistent and controlled watering.

Choose WickTray for a smarter, greener, and more efficient way to garden.

Made from UV Stabilised 70% Recycled 30% Virgin Polypropylene
